A wreck occurred on the Baltimore & Ohio Southwestern, at Cummins, Ohio, Friday last week. A D. & M. engine collided with a Big Four freight train. Seven cars were smashed, and one loaded with \$500 worth of fire-works caught fire and exploded, driving away the firemen who attempted to extinguish it. No person hurt.

The county court, of Vernon county, Thursday of last week rendered a temporary injunction in the case of W. H. Garton against the Nevada school board. Mr. Garton's children are debarred from school because their father had moved into Nevada from the country about the time school opened. The case will be taken to the circuit court, but in the meantime the children will go to school.

The trial of Jacob Grossenbacher, under indictment for the murder of his wife, near California, Montezuma county, several months ago, was concluded, at Boonville, Friday afternoon of last week in the Cooper county circuit court, and the case given to the jury, and it was still out at last accounts. The case is there by change of venue. The murder was a peculiarly atrocious one, Grossenbacher blowing off his wife's head with a shot-gun.

KIEGEL, Meyers, Blochs and Jacoby, the four German pedestrians, who have contracted to walk from New York to San Francisco in 171 days on a wage of \$4,000, arrived, at Wichita, Kansas, thirty-three days ahead of time, considering the time allotted for the distance. They are in good trim. They are walking without being allowed any money except what they are given along the route by sympathizers.

WILLIAM NESBIT, a Denver murderer awaiting the death penalty in the Colorado penitentiary, made a desperate attempt to kill himself Thursday afternoon of last week. He called for a bottle of ink with which to write a letter, and as soon as it was handed to him he dashed it upon the stone floor. He then picked up the floor particles and chewed and swallowed them. The guard who gave him the ink bottle grappled with the desperate man, but could not prevent him from swallowing the pieces of glass.

UPWARDS of \$4,000,000 worth of property was destroyed by fire Thursday night of last week in West Forty-first street, West Forty-second street and Tenth avenue, in the city of New York. A whole block of factories and tenement houses was swept away by the flames and several hundred people rendered homeless. The fire was discovered at 8:05 o'clock and apparently started in Wm. Campbell's wall paper factory at 516 West Forty-second street. In less than 15 minutes from that time the building was a mass of flames. The factory was eight stories high and was surrounded by a glass tower 100 feet high.

### A Smart Woman.

—Is always ready for any emergency. She keeps a bottle of Parks' Cough Syrup in the house in the summer time. A summer cough and cold is quickly cured by it. Unequaled in croup. Sold by W. C. Gaston.

THE senate in executive session Friday afternoon of last week considered the case of Mr. J. J. Van Alen, and favorably reported his appointment to be ambassador to Italy. A motion to send the nomination back to the committee was laid on the table and Van Alen was then confirmed by a vote 39 to 22.

THE president of the University bank, of Los Angeles, Cal., makes the following points in a recent letter: It is the volume of money that regulates prices and business, and not the material out of which the money is made, nor the commercial value of the article used to receive and carry the nation's fiat.

ROBERT SCOTTEN, of Howard county, is made of the right material. He is a young student at the Salisbury academy. A few nights ago some of the "smart alecs" who attend that institution invited him to accompany them to the outskirts of the town, intending to give him a scare. He showed fight and soon cleaned out the crowd.

WILL Chicago undergo a retrograde movement after the fair? A great many good friends of the city are predicting it, for the reason that things have been going ahead too fast. They declare that the reaction must come and prophesy that hard times with a vengeance are in store for Chicago. They point to Philadelphia and cite the collapse which occurred there at the expiration of the centennial.

EARLY Friday morning of last week an attempt was made to hold up at Frisco passenger train on the Arkansas division, near Fort Smith. The passenger was only a few miles behind the freight, and the bandits seem to have mistaken the freight for the passenger and held it up, but released it when they saw their error. The passenger was provided with officers, but it was not molested.

GOVERNOR FOSTER, of Louisiana, in an interview on the subject of the deposing of prize fighting in that state, said a few days ago he would take steps to prevent prize fighting being held there. In his opinion there is not any great likelihood of that kind taking place at that state. Should there be, however, he will at once take steps whereby such attempts will be thwarted.

SENATOR McPHERSON, of the senate committee on coinage, last week presented a statement from the secretary of the treasury showing that the estimated receipts of the public revenues as submitted to the last congress for the present fiscal year was \$405,000,000, not including the postal service, and estimated expenditures, also excluding the postal service, to be \$307,000,000 showing an estimated excess of receipts of \$98,000,000 for the year.

THERE is quite a sensation in Tazewell county over the recent finding of what is supposed to be a quicksilver mine. Some few days ago a man living in that county says he found a vast amount of this valuable ore. He had a specimen with him, at Springfield, Mo., last week which looked like nothing ever found in Southwest Missouri. Some of the ore was sent off to an assayer, who pronounced it genuine quicksilver and worth \$1 per pound. The finder of the mine will not tell where it is. It is supposed to be on land belonging to the government.

THE case of the state vs. Harvey W. Plattenburg, charged with murder in the first degree, was dismissed in the criminal court, of Lafayette county, at Lexington, last week by Prosecuting Attorney Aull. Plattenburg shot and killed David Gray and James McDowell in that city September 29th, 1892. Two indictments were found against him. He was acquitted for the killing of Gray at the June term, the jury only being out five minutes. The evidence in the McDowell case was the same as the Gray case, and Mr. Aull, believing a conviction impossible, dismissed the case against him for the killing of McDowell.

"I consider Chamberlain's Cough Remedy a specific for croup. It is very pleasant to take, which is one of the most important requisites where a cough remedy is intended for use among children. A CORRESPONDENT at La Paz, Bolivia, telegraphed to the government authorities, at Washington, last week that objection is likely to be made by the republic of Bolivia to Charles H. J. Taylor, President Cleveland's nominee for United States minister to that country. Fault is found because Mr. Taylor is a colored man.

ALTHOUGH they refuse to admit it, the police, of Chicago, are very anxious over the situation there in regard to Anarchy. A secret monster meeting of Anarchists, it has just leaked out, was held in that city recently, at which Herr Most, of New York, and other leading Anarchists were present. The object of the meeting is not known.

ARTHUR KAUFFMANN is a young man living at Memphis and his head was badly gashed in the Wabash wreck, at Nameeki, Ill., Monday night of last week. He would have bled to death if a Miss Taylor, of Jefferson, Tex., who escaped injury, had not torn off her petticoat and used a portion of the delicate garment to bandage his wounds.

In a conversation between Secretary Carlisle and Representative Bartholdt, of St. Louis, Friday of last week, the former said that he had concluded to postpone the appointment of an internal revenue collector, at St. Louis, until after the silver fight is settled, for the reason that the senate is too much occupied with the silver question to consider any nominations.

P. D. ARMOUR, the wealthy packer, has just returned to Chicago from an eastern tour, in which he has been examining eastern schools of technology. THE West Indian migratory crab is the only creature that is born in the sea, matures in fresh waters, and passes its adult life on land. Once a year these creatures migrate in thousands from the uplands of Jamaica, deposit their larvae in the sea, then migrate to the rivers and streams, pass through a fresh water stage, after which they follow their parents to land until the time comes for them to return to sea to lay their eggs.
